FRIENDSHIP WITH CANADA VOICED BY PRESIDENT

Fellowship of Americas
Stressed In Address
At Kingston

VIGOROUS SLAP ON "BRUTALITY"

"Devastation of War
Tragic On Processes
of Men's Minds"

By WILLIAM B. ARDERY
KINGSTON, Ont., Aug. 18.—(AP)—President Roosevelt asserted emphatically today the people of the United States "will not stand idly by if domination of Canadian soil is threatened by any other empire."

The chief executive, speaking at Queens University, expressed sincere friendship for Canada as a member in "the fellowship of the Americas." He added:

"We in the Americas are no longer a far away continent, to which the eddies of controversies beyond the seas could bring no interest or no harm."

"Instead, we in the Americas have become a consideration to every propaganda office and to every general staff beyond the seas."

"The Dominion of Canada is part of the sisterhood of the British Empire. I give to you assurance that the people of the United States will not stand idly by if domination of Canadian soil is threatened by any other empire."

Vigorous Against "Brutality"
The President, speaking only two days after Secretary Hull's call for a seven-point program to bring about world peace, spoke in vigorous terms about "wanton brutality" and "undemocratic regimentation" by a government.

He did not, however, name any foreign nation.

Through Mr. Roosevelt's address ran the theme that civilization and education transcend international borders, and that the Americas now are largely responsible for maintaining the tradition of a free interchange of ideas between nations.

Referring to the United States and Canada, the President said as good neighbors the nations are "true friends, because we maintain our own rights with frankness."

Then, discussing the workings of public opinion, the chief executive had this to say:

"We can not prevent our people from having an opinion in regard to wanton brutality, in regard to undemocratic regimentation, in regard to misery inflicted on helpless peoples, or in regard to violations of accepted individual rights."

"No country where thought is free can prevent every fireside and home within its borders from considering the evidence for itself and rendering its own verdicts; and the sum total of these conclusions of educated men and women still, in the long run, become the national verdict."

"That is what we mean when we say that public opinion ultimately governs policy. It is right and just that this should be the case."

Devastations of War
The President, who arranged to travel from here to Ivy Lea, Ontario, for an international bridge dedication, told his audience in the Queens University stadium that many know, "that of all the devastations of war, none is more tragic than the destruction which it brings to the processes of men's minds."

Tracing a close connection between nations of this hemisphere and events in other nations, Mr. Roosevelt said that "a few days ago a whisper, fortunately untrue, raced around the world that armies standing over against each other in unhappy array were to be set in motion."

"In a few short hours," he continued, "the effect of that whisper had been registered in Montreal and New York, in Ottawa and in Washington, in Toronto and in Chicago, in Vancouver and in San Francisco."

"Your business men and ours felt it alike; your farmers and ours heard it alike; your young men and ours wondered what effect this might have on their lives."

"We in the Americas are no longer a far away continent, to which the eddies of controversies beyond the seas could bring no interest or no harm."

"Happily you and we, in friendship and in entire understanding, can look clear-eyed at these possibilities, resolving to leave no pathway unexplored and no technique undeveloped which may, if our hopes are realized, continue to the peace of the world."

"Even if these hopes are disappointed, we can assure each other that this hemisphere at least shall remain a strong citadel where civilization can flourish unimpeded."

TRAIN IN RIVER DUE FLASH FLOOD

PRATT, Kas., Aug. 18.—The locomotive and 30 cars of a Rock Island freight train piled into the Cimarron river at Arkalon early today, injuring three trainmen.

A flash flood down the river shortly after midnight partly washed out a bridge over the stream, causing the wreck.

Fireman C. M. Powell of Pratt was taken to a hospital at Liberal. His injuries were not determined. Engineer Walter Walker and brakeman Holder, both of Pratt, were less seriously injured.

INQUIRY GROUP AWAITS RECORD IN BRIDGES CASE

Desires To Learn If
"Peculiar Influence"
Delayed Deportation

By The Associated Press.
WASHINGTON, Aug. 18.—The house committee investigating un-American activities endeavored today to learn today from labor department records whether any "peculiar influence" had delayed deportation of Harry Bridges, CIO maritime leader, a Communist and alien.

The labor department agreed to open its records to the committee in response to a request from Chairman Dies (D-Tex.).

A committee member who declined to be quoted by name, said the department files might disclose a copy of a "certain document" which would explain why Bridges was not deported immediately.

The information was sought for use by Miss Margaret Kerr of Los Angeles in testimony before the committee. She is executive secretary of the Better America Federation, which Dies described as a patriotic league.

Await Security Document
The committee heard Miss Kerr's information about Bridges behind closed doors yesterday and decided not to make it public until the document was obtained.

(The labor department decided four months ago to postpone the deportation proceedings against Bridges pending appeal of a circuit court decision in another case that Communist party membership was not cause for deportation.)

Meanwhile, the committee arranged for four witnesses from New York City to describe the recruiting of American youths for service in the Spanish civil war.

"They will explain how subversive elements in this country were responsible for them getting into the war," Dies said. "Some of them will be men who went across."

VACANCIES FILLED ON RELIEF BODY

E. F. Hausam, Jr., and J. N. Rosenthal have been appointed members of the Pettis County relief committee to take the places of W. P. Stanley, deceased, and E. W. Jones, who has moved to Columbia. This was made known at a joint meeting of the Pettis County Social Security Commission, C. A. Wisdom, Green Ridge, chairman, and the Pettis County relief committee, Mayor Julian H. Bagby, chairman, held Wednesday night.

The State Social Security Commission has adopted a new policy whereby there will be no direct relief given to new employable cases, and instead they will be referred direct to the WPA. The county adopted the same policy. Those now on relief will still be taken care of and the new rules refer only to new applications for relief.

The committees are sponsoring an N. Y. A. sewing project which will employ forty young women from 18 to 24 years. The county committees will be responsible for the materials, and the N. Y. A. paying salaries, providing supervisors, and other expenses. The sewing room will be located on the second floor of the old postoffice building, in which building the social security commission headquarters are located.

The garments made in this sewing room will be used for needy families both for individuals and county institutions.

William B. Hert, Jr., who has charge of the county relief subscriptions made a report. There are still a number of pledges unpaid, and the committee members expressed the hope they would all soon be paid.

LILIENTHAL TO STAND TO TELL OF MARBLE DEAL

Digresses In Hearing On
TVA, To Criticize Ousted
Chairman

CLAIMS DISTORTION OF FACTS EVIDENT

Second Round of Testimony For Director Before Committee

By The Associated Press.

KNOXVILLE, Tenn., Aug. 18.—TVA Director David E. Lilienthal took the stand today to give his first testimony on the Berry marble deal but digressed almost immediately to renew his criticism of Arthur E. Morgan, ousted TVA chairman.

Lilienthal said he had been criticized for "hiding" a memorandum which voiced suspicion of "fraud" in the marble and mineral claims of U. S. Senator George L. Berry and associates. Terming the criticism unjust, the TVA director said he had never seen the document prior to a condemnation hearing.

It was Lilienthal's second round of testimony before the congressional committee investigating TVA. In his first he reviewed his and incumbent Chairman Harcourt Morgan's squabble with the ousted director.

The memorandum was written in 1934 by Edwin C. Eckel, TVA geologist, to Bock. Lilienthal said it was in March, 1935, before he heard of the Berry claims. At that time, he testified Bock advised the TVA directors of the claims and suggested a settlement if it could be arranged for \$2,000 or \$3,000.

Claims Facts Distorted
Lilienthal said "distortions of facts incident to the Eckel memorandum had resulted in unwarranted criticism of him and Harcourt Morgan since the investigation started."

"Are you intimating this committee is not giving you a fair chance to present the facts?" asked committee counsel Francis Biddle.

"No," the TVA director replied. "The necessity of this kind of procedure has caused it. It seems that if the New York Times would comment adversely on this episode, a clear picture has not been given. The Times is one of the greatest newspapers I know of."

Biddle — "Who are you criticizing, the committee or the New York Times?"
Lilienthal — "Neither. I'm only trying to show the necessity for a well-rounded picture. I would like to summarize this matter."

Rep. Charles Wolverton (R-NJ) interrupted: "If your deference to a summarization means a canned publicity release by the TVA publicity department, I shall object. However, you will be given all the time needed to testify."

Allegations of Abuse
Negro workers on the TVA's Chickamauga dam have been kicked, cursed and treated "brutally" by their foremen and walking bosses, a witness charged today before a congressional committee investigating the Tennessee Valley Authority.

The appearance of TVA Director David E. Lilienthal to testify in the Berry marble case was delayed while the committee listened to a detailed account of alleged abuse from Charles H. Houston, negro, special counsel for the National Association for the Advancement of Colored People.

The committee considered the situation serious enough to warrant investigation, and ordered TVA Personnel Director Gordon R. Clapp to prepare a report on complaints.

SENTENCE BIRD TO 45 AND HALF YEARS

BALTIMORE, Aug. 18.—Judge Samuel K. Dennis sentenced Charles Bird, midwestern desperado, to 45½ years in state prison today after the slight, 26 year old gunman pleaded guilty to seven robbery charges under which he might have been sentenced to 140 years.

"It is the painful duty of the court to impose such a sentence that will require you to spend the rest of your life in confinement, or be so old when you are released that you will no longer have the strength to prey upon the public," the judge told Bird.

His blonde wife, Barbara, 24, mother of a 14-month-old son, now with her parents in Cleveland, O., and who is expecting another child, pleaded innocent to the one robbery charge that is against her and her trial was begun immediately before a jury under Judge Samuel K. Dennis.

AWAIT REPORT ON STUDY OF VISCERA

MARCELINE, Mo., Aug. 18.—C. Derk Green, Linn county attorney, said today the preliminary hearing for Dr. M. F. Lamance, Laclede osteopath, who is charged with the murder of his wife, would be held in abeyance until a report is received on the victim's viscera from the state highway patrol chemist at Jefferson City.

Green said he was uncertain when the report would be completed.

Another part of the viscera is being studied at Kansas City. It was left there yesterday by Dr. Gilbert Kroger, Purdin, Mo., osteopath, as he accompanied Dr. Lamance and his mother to the funeral of Mrs. Lamance at Williamsburg, Kas.

Dr. Lamance was returned to Tinsley last night and was kept in the county jail. Green said he and Max Brown, sheriff, would continue their investigation and might question the former boxer late today.

Mrs. Lamance's body was found in the vegetable cellar in the backyard of her home late Sunday night after she had been missing for almost a week.

Administrator Named
Letters of administration on the estate of Miss Margare Winzenburg were issued by Probate Judge J. E. Smith to Henry Winzenburg.

KIWANIANS HEAR PLANS ON RURAL ELECTRIFICATION

J. A. Muster Also Speaks
Before Club On Possible CCC Camp

Proposed rural electrification in Pettis and Saline counties and a planned program of soil erosion prevention were subjects discussed by J. A. Muster, manager of the Osage Farms, speaking before the Sedalia Kiwanis Club in Hotel Bothwell this noon.

Mr. Muster explained the necessity of quick action by farmers of this county to communicate with County Agent J. U. Morris in signing up for the rural electrification movement before Saturday of this week if they expect to obtain \$350,000 worth of federal aid.

Regarding the soil erosion program the speaker called attention to the fact that there was a possibility of obtaining the location of a CCC camp in Pettis county to aid erosion prevention. The Kiwanis Club voted unanimously to lend its support to obtaining this government service for the farmers.

Today's program was in charge of John Greenhagen, chairman, who introduced Tom Yount, of the club's agriculture committee, which is interested and lending its support to the farm program movement. Mr. Yount presented Mr. Muster.

Lee Montgomery told in an entertaining fashion of his recent eastern trip to his class reunion at Princeton and his western trip to Beverly Hills, Calif.

Today's club attendance gift was received by Mrs. Nellie Monagan, two brooms from Harry Lindstrom.

Capt. F. F. Frakes, Kiwanian from Columbia, Tenn., who will do airplane stunt crashes at the Missouri State Fair next week, was a guest.

OFFICERS ELECTED LEGION AUXILIARY

Mrs. Cecil Glenn was elected president of the American Legion Auxiliary, Post No. 16, at a meeting of the organization held Wednesday night at the home of Mrs. Herman Myers, 213 West Fifth Street. Others officers elected were:

First vice-president, Mrs. E. R. Richardson.
Second vice-president, Mrs. Vernon Glenn.
Treasurer, Mrs. Jennie Hilligoss.

Secretary, Mrs. Ethel Jones (re-elected).
Chaplain, Mrs. Alice White.

Mrs. Richardson and Mrs. Jones were elected first and second delegate respectively to the state convention which will be in Cape Girardeau September 4, 5 and 6. Mrs. M. D. Weathers and Mrs. W. B. Rissler are first and second alternates.

Mrs. L. R. Bailey, retiring president, was presented with a past president's pin by Mrs. Herman Myers, past president, who took occasion to thank Mrs. Bailey, on behalf of the organization for her faithful service as leader.

Mrs. Alice White, known to the Legion and auxiliary members as "Mother," spoke briefly but interestingly on "The Love of the Auxiliary."

CONTROL AT STAKE OF COMMITTEE

(By John M. Hightower)
WASHINGTON, Aug. 18.—(AP)—Administration control of the strategic house rules committee is at stake in President Roosevelt's fight to unseat Rep. John O'Connor of New York.

If O'Connor is renominated and reelected, domination of this committee — which determines the legislation to come before the house — may pass into the hands of anti-administration congressmen.

O'Connor is chairman. Nine other Democrats and four Republicans are members. Four of the Democrats—Sabath of Illinois, Greenwood of Indiana, Harlan of Ohio and Lewis of Colorado — generally are considered Roosevelt supporters.

Four others — Cox of Georgia, Smith of Virginia, Clark of North Carolina and Dies of Texas — backed the president on the wage hour bill. Some of them also have opposed various other administration measures.

The other Democratic member, Driver of Arkansas, already has been eliminated from the picture. He lost his race for renomination to E. C. Gathings, after a campaign which politicians here said was lacking in issues of national importance.

Driver opposed the wage-hour bill. Assuming the number of Democratic committeemen remains the same in the next session, his defeat will give the administration leadership in the house an opportunity to put a New Deal supporter into his place.

SALES TAX MILLS SHORTAGE IN THE STATE IS ENDED

Sedalia Merchants Turn
In Old Ones Or A Surplus For Money

Mills, not counted but weighed, were turned over to R. E. Copher with the state department, Jefferson City today, by Sedalia merchants.

Mr. Copher had announced he would be at the Chamber of Commerce office today to receive a surplus of mills the merchants had on hand, and would pay them for same.

At 1:30 o'clock this afternoon he had paid out \$133, \$60 for metal mills, and \$73 for the old type paper ones. That would have been 133,000 mills had they all been one mill type, but there were both five's and one's. He expected to receive many more during the afternoon.

Mr. Copher brought his own scales and machine for stacking the tokens. The manufacturer's weight is accepted by the state officials and much time is saved by just weighing the metal pieces, and taking the word of the manufacturer for how many there are per ounce.

Shortage Ended
JEFFERSON CITY, Aug. 18.—Missouri's "mill" shortage ended today with receipt by State Auditor Forrest Smith of 10 million metal one-mill sales tax tokens.

For nearly two months, Smith said, the state had been unable to meet requests for the tokens. Today's shipment, however, should last the remainder of the year, he estimated.

The state has now purchased a total of 40-million one-mill tokens and 12½ million five-mill tokens, Smith said, paying \$2.22 a thousand.

WITNESS STATES POLICY RACKET MADE 'AIR TIGHT'

Testifies At Hines Trial
That Schultz Took
Over Control

OBJECTIONS OF DEFENSE OFTEN

Prosecutor Dewey At
New York Charges Ac-
cused Shared Profits

By JOHN FERRIS

NEW YORK, Aug. 18.—(AP)—Wilfred Brunder, 43, West Indies negro, once operator of a \$1,000,000-a-year Harlem policy bank, testified in supreme court today that when he came out of prison in 1932 he learned Dutch Schultz had taken over control of the lucrative game and made it an "air tight" racket.

On the stand as a witness in the trial of James J. (Jimmy) Hines, Tammany district leader, on charges of conspiracy in connection with the policy syndicate, Brunder said another Harlem policy syndicate, Brunder said another Harlem policy banker, Joe "Spasm" Ison, told him that Schultz had squeezed out small individual operators.

"Schultz has got a cold monopoly," Brunder quoted Ison as telling him.

As Brunder began his testimony, Defense Attorney Lloyd Paul Stryker interrupted with frequent objections.

Leaping to his feet, the tall defense counsel called loudly:

"I object to it as incompetent, irrelevant and immaterial . . . not germane to the issue . . . hearsay . . . no foundation laid. . . not in the presence of the defendant. . . No foundation to establish that it was in furtherance of any matter which might in any wise render it admissible."

When he had finished, out of breath, Justice Ferdinand Pecora said dryly:

"Objection overruled."

"Exception," scowled Stryker. And the testimony went on.

Testimony Interrupted
A policy or numbers "banter" in Harlem for seven years, Wilfred Brunder had begun a detailed description of the lottery yesterday when his testimony was interrupted by a defense demand that some connection be shown between Hines and the racket he is charged with aiding.

Though protesting, District Attorney Thomas E. Dewey promptly produced a confessed henchman of Schultz — rangy, broad-shouldered George Weinberg, who was indicted with Hines but turned state's evidence — to "put the finger" on the Tammany boss.

Halted at every other sentence by defense objections, Weinberg testified Hines attended a 1932 conference at which arrangements were made to protect the numbers racket from too much official interference.

The grizzled Tammany boss received a \$1,000 retainer from Schultz at the racket boss' apartment, the witness added, and Schultz ordered Weinberg to give Hines \$500 to \$1,000 a week.

"I was told by Schultz to make my arrangements to get in touch with Hines whenever I needed him," Weinberg said, explaining he had told Hines that Schultz and his associates wanted policy cases settled in magistrates' court and not "down town in special sessions," and that police raids should be curbed.

"Hines went on the payroll and promised to deliver," Dewey had told the jury in his opening statement, as he sketched the growth of the racket in which, a 13-count indictment charges, Hines shared control and profits.

Defense Counsel Incensed
Already incensed by Dewey's charges, which he told the jury were based on "diabolical falsehoods" and "the rankest perjury," Hines' chief counsel, Lloyd Paul Stryker, first demanded a mistrial because of Weinberg's testimony.

Denied his motion by Justice Ferdinand Pecora, Stryker arose to confront Weinberg. His voice sharp and indignant, he first prompted the witness to admit that everyone at the alleged 1932 conference, except him and Hines were dead.

Then, confronting Weinberg testimony from a federal court trial in which he denied having business relations with Dutch Schultz, Stryker made the uneasy racketeer admit he had lied in that trial—lied to save \$24,000, Weinberg added.

"Would you lie to save your liberty?" Stryker demanded.

"I don't know whether I would or not," Weinberg answered.

"That is all," Stryker told the court.

SCHOOLS TO OPEN HERE SEPTEMBER 6

The schools of Sedalia, both public and parochial, will reopen Tuesday morning, September 6. On that day there will be registration and assignment of classes, then the boys and girls will be dismissed to arrange for their books and supplies, and be ready for classes on Wednesday.

Bothwell Hospital Notes
Mrs. Oryland Chancellor, 1312 South Kentucky avenue, and Mary Ann Rambow, of Windsor, were admitted for surgery.

GOOD NEIGHBOR IS A QUIET ONE

You hear a good deal these days about the far-reaching propaganda activities of the Nazis and Fascists in South America.

These exponents of totalitarian culture are obviously doing everything they can to win the Latin-American over to their way of thinking—and also to their markets. Commercial missions, trade groups, experts of high and low degree, agents diplomatic and consular—all go through the republics of the south, selling goods and ideas impartially, while self-satisfied Uncle Sam goes on in the old way without making any particular effort to counteract the European invasion.

The whole business looks rather ominous, sometimes. For one thing, South America is an excellent market which American exporters could ill afford to lose; for another, no lover of democracy relishes the idea of Fascism gaining a foothold in this hemisphere.

But maybe our worries are overdone.

The New York Herald-Tribune recently sent a correspondent through the southern republics to report on things. He sent in a dispatch from Peru the other day, and the substance of it is worth reading.

First, he reported, while Italian and German agents are treating the Peruvians to a whirlwind campaign of sales and propaganda combined, the fact remains that the United States continues to outsell both nations by a ludicrously wide margin. Its total commerce with Peru exceeds that of any other nation; it owns two-thirds of the foreign investments in Peru; without any special propaganda or sales effort, it outsold Germany in Peru two to one, last year.

The American colony in Peru is not in the least worried. As one American there told the correspondent:

"Worried about the black shirts and the brown shirts? Why, all we need to do is to keep these boys talking and saluting. The Peruvians already realize what their line is. Let them tell the Peruvians how wonderful they are. If we keep quiet and attend to our own business, the Peruvians will continue to speak and think well of us."

The best propaganda, after all, is to "keep quiet and attend to our own business." That is just the kind of propaganda that the aggressive, bustling dictatorship cannot ever put out; for the basic philosophy of the modern dictatorship compels it to be a leather-lunged meddler.

The bulk of the people aren't easily fooled. In the long run, the nation that goes quietly ahead doing business in the traditional manner can have little to fear from the frantic and blatant campaignings of the totalitarians.

SO THEY SAY

It has been very pleasant to work here every day for the last month to the inspiring rhythm of the riveters. I enjoy it.—Mayor LaGuardia of New York, who has maintained an office on the World's Fair grounds.

I guess I was lucky after all. The hay and other stuff in the barn was wet and wouldn't burn.—Charles Faith of Washington, Ind., the roof of whose barn was torn off by a cyclone shortly before the barn was burned by lightning, and shortly after his two children had been injured in accidents and a number of his hogs had been killed by cholera.

SHORT TALKS ON ADVERTISING

Prepared by the
Bureau of Research and Education
Advertising Federation of America

ADVERTISING LOWERS PRICES

Number 10
Are you willing to spend 45 cents to save 15¢? Of course you are—if you know the facts. Sometimes advertising performs a miracle like that.

Ten years ago, a certain camera sold for \$30. It was advertised extensively, sales increased, and overhead costs were reduced. Now, with larger production, the manufacturer is able to operate more economically and to sell a better camera for \$15. The advertising cost amounts to 45 cents for each camera. The saving to the customer is \$15.

In a similar way, advertising has helped to lower prices in many other specific cases. Yet there seems to be a common impression that advertising represents an extra cost, something that must be added to the price of what you buy.

Everybody knows that advertising costs money and that it is used to help sell goods. Less known is the fact that good advertising sells goods so well that it is the cheapest way of selling them. This is one of the reasons why it is possible to sell well-advertised goods at a lower price than if they were not advertised.

Then there is the other important reason. As advertising builds the sales volume of a company faster and greater than any other method, it makes large-scale manufacturing possible, and that reduces the cost of making each article. When there is competition, which there usually is, manufacturers and dealers lower their prices as rapidly as they can. In this way, consumers get the benefit of the savings that advertising effects in the costs of selling and manufacturing.

When you see thousands of dollars spent for single advertisements or a single radio broadcast, it is only natural to assume that you have to pay for it when you buy the advertised article. But few people realize how little this cost really is when spread over the large number of units sold through the advertisement and how large a saving this makes in the total cost. On canned food, the average cost of advertising is less than one-half cent per can. On one of the most widely advertised soft drinks the advertising cost is less than one-fiftieth of a cent per glass!

Lumping together all the advertising in the country, the total expenditures amount to less than 2 per cent of the value of all goods sold. This is very small in comparison with other selling and distributing costs. The Department of Commerce estimates that in 1935 the total cost of distribution was 28 per cent. So it appears that the total amount spent for advertising is only one-fourteenth of the whole cost of distribution.

If no money were spent for advertising, the cost of selling and distributing would be far higher than it is now, and prices would have to be higher. More important still, a smaller volume of goods would be sold and produced, and there would be less employment and a smaller share of the world's goods for each of us. Advertising puts money in your pocket.

SHOPPERS

It used to be that the girls who were looking forward to a little higher education generally adopted as an alma mater the college their mothers had always wanted to attend, or simply headed for the institution concerning which they'd heard the greatest number of attractive rumors.

But times change. News comes of the conclusion of an organized tour by motor caravan which a large group of girls from every part of the country made this summer. The tour, as you've probably guessed, was an inspection tour of all the colleges the girls had considered attending. The girls simply went poking around and got their dope first-hand, and now they've got a fairly realistic basis for making up their minds.

It's the shopping instinct, and it looks like a pretty good instinct.

Longan was elected to the high school chair of physics and chemistry; Miss Blocher, teacher of history and civics; and Irwin Rautenstrauch, assistant in languages. At Broadway school Miss Floy Jackson was transferred to grade No. 8, Miss Belle Steele was elected to the seventh grade and Miss M. Walker chosen teacher of the third grade. Miss Birdie Shafer was transferred from Prospect to Franklin school first grade, succeeding Miss Leaming. Miss Snell was elected second grade teacher. It was decided not to continue the South Sedalia negro school and C. White was elected and assigned to Lincoln school.

Misses Gertrude Fleischmann, Florence Hoffman, Ruby Bowling of Columbia; Olive Withers, Clara Scheiner and Margaret Johns; Messrs. Sam Van Dyne, George and Joy Hoffman, Arthur Ferguson, Ben Blair and Tod Cloney drove out to Flat Creek yesterday afternoon and passed a delightful evening eating their lunches beneath the trees.

Judge Frank B. Taylor, 87, died at his home two miles north of Smithton Wednesday afternoon. He came to this section 40 years ago. He served several years as a member of the Pettis county court and to his efforts and influence is largely due the building of the magnificent court house that now graces the city.

WASHINGTON — "The Purge Punch-Puller" is the new title given to White House Secretary Marvin McIntyre by some of the Inner Circle.

Reason for the title is that easy-going Marvin resorts to all sorts of subtleties to pull the punch of the presidential purge, the latest being to start the train at Greenville, S. C., before the President could officially place Senator "Cotton Ed" Smith on the purge list.

Inside story of this was one of the most fascinating dramas in modern politics. Prior to his arrival in South Carolina, the President had determined not to endorse Governor Olin D. Johnston, who is running for the Senate against Smith. Friends advised Roosevelt that the three-cornered race was too complicated, that South Carolinians would resent outside interference.

However, they reckoned without long-legged Governor Johnston. The Governor hopped on the presidential train while it was still in Georgia and asked to see the President. "Don't let him go back down the train," said McIntyre, the Punch-Puller of Purges; "he might persuade the boss to change his mind."

Roosevelt-Hater That was exactly what Johnston did. Joe Keenan, forthright Assistant to the Attorney General, led him back to the presidential car, where the Governor, once a mill-hand, did the most persuasive talking of his life. He pointed out that "Cotton Ed" Smith was a far more bitter enemy than Senator George of Georgia, that if the President was consistent he could not escape giving his opinion of Smith. He reminded Roosevelt that "Cotton Ed" had attacked not only him but Mrs. Roosevelt, and finally he pointed out that "Cotton Ed" had boasted publicly that Roosevelt did not dare come into the State.

"If you don't say anything in South Carolina, Mr. President," warned Governor Johnston, "Cotton Ed will make a public bust up and down the State that you were afraid of him." So as the train pulled into Greenville, the President went to the rear platform. A crowd of 25,000 awaited him, one of the most responsive of his trip. Newspapersmen, told by McIntyre that there would be no speech in South Carolina, were taken by surprise. They scurried to the tracks in the rear of the car.

Suddenly, when the President had gotten about two-thirds through his speech, the train began to pull out. Newspapersmen scrambled aboard, some of them almost left behind. The President looked irate.

McIntyre, the "Purge Punch-Puller" had waved to the conductor, and the train had moved on.

Punch-Puller No. 2 Jim Farley has not earned the public title yet, but in less spectacular, though more effective way, he might be called "Purge Punch-Puller No. 2."

Latest purge that Jim pulled away from is that of John O'Connor, Tammany Congressman and the chairman of the Rules Com-

mittee who so effectively blacked various New Deal bills last session.

Before Roosevelt left for California, he told Farley to put a strong candidate in the field against John O'Connor. But Jim and John are old Tammany pals. Also Jim feels that John was more sinned against than sinning. So he didn't argue with the President. He quietly went to Alaska.

With both Roosevelt and Farley gone, other O'Connor enemies began to get restive. One of these was Mayor Fiorello LaGuardia.

Fearing that there would be no opposition to O'Connor at all, LaGuardia maneuvered through the American Labor Party to put Byrnes MacDonald, former deputy police commissioner, into the field. At the same time Fiorello continued to prod White House insiders.

Their strategy was to run James H. Fay, the man who nearly defeated John O'Connor at the last election. In fact, would have done so had not the President personally gone to O'Connor's rescue at the request of his brother Basil. (Basil O'Connor is the President's former law partner and, strangely enough, continues to be an intimate adviser of the family.)

Fay was willing to challenge O'Connor again—if the "if" was organization and White House support. The latter was guaranteed by the inner circle. However, they could not speak for Tammany, and the only man who could speak was watching the Eskimos in Alaska.

Ed Flynn, powerful Bronx boss, and the second in command, absolutely refused to move.

Roosevelt Moves In This was the stalemate when the President landed at Pensacola. Immediately, he called up the White House to inquire what had been done about O'Connor. When told what had happened, Roosevelt moved with dispatch and vigor.

He telephoned Flynn and told him that he wanted Fay matched against O'Connor in the Democratic primary. In another telephone conversation the President directed that this information be conveyed to Fay and LaGuardia.

No effort was made to communicate with Farley, still occupying himself with making harmony speeches in the Middle West. The President went directly over his head, took personal command of the situation, put Fay into the field against O'Connor within 48 hours after debarking from the Cruiser Houston.

SERIAL STORY

HAYWIRE HOUSE

BY EDWIN RUTT

Yesterday Wilton Ames conspired to have Sally hay stock (to lose her home). That night two men rush suddenly into the Restaurant after loud shooting outside.

CHAPTER VIII
Dazed as they were Sally and Kinks perceived that the invading gentlemen had found refuge in the nick of time. Outside a staccato of revolver shots rent the night. A hail of bullets splattered against the door of Mrs. Preston's house. But the door was thick and solid, built to take it.

Kinks Parker came to life. He seized Sally, pulled her into the dining room. Simultaneously they dived beneath the dining room table.

Suddenly cautious footsteps sounded. The living room lights went out. A second later a volley of shots went off close at hand. Kinks understood. The men were firing through the living room windows at an unknown enemy outside.

From somewhere out in the grounds came a cry of mingled pain and anger. It was followed by an interval of quiet. Then a motor roared and raced. Presently the sound of it died away.

There was a moment when the house seemed to tremble with the vibrant echo of the shooting. Sally and Kinks, inglorious beneath the dining room table, strained their ears. Peace settled once more over the Preston home.

A HOARSE whisper from the living room broke the stillness.

"They've scrambled, Chief," said a voice. "We must hit one of 'em."

Another voice spoke and the whisper was louder, but just as hoarse.

"Hey, youse?"

"You mean us?" Kinks whispered back.

"Yeah, youse. C'mon back in dat hallway. It's okay now."

Sally and Kinks crawled obediently from under the table. The lights in the hall were still on. And presently the two gun-minded gentlemen emerged from the darkened living room.

A scientist would have classified them immediately under the general heading of Gorilla. The first to appear, and obviously the leader of the expedition, was tall, broad-shouldered and blue-chinned. He had dark, dangerous eyes, a huge nose formed like a parrot's beak and a mouth as wide as the Delaware river. But terrifying though that face was, something attractive seemed to

Bull Griffin

lurk in it. The man was almost fascinatingly ugly.

His companion was a short, squat, ape-armed character with a head like a pumpkin. Upon his flat-nosed, beady-eyed countenance the vices paraded unblushingly. It was evident that he, or his immediate forebears, owed allegiance to sunny Italy. And to the wrong side of the tracks somewhere in Italy, at that. He looked like the kind of a guy who spent the golden hours stiletto-ing his grandmother and jumping on the body.

Sartorially, however, these citizens were very snappy. They wore gray felt hats tilted at rakish angles. The trousers of their dark suits were creased to razor-edges. Stickpins glowed in their ties; rings gleamed on their fingers. The critic of what the well-dressed man will wear could have quibbled over nothing save a single feature. Each of them sported a wicked-looking blue automatic in a hairy fist.

"Who are you?" she fired back.

"Who, me?"

"You!" Sally's finger, darting out, nearly stabbed him in the stomach.

"Why," he said, and pride tinged his voice, "I'm Bull Griffin."

"All right," she said. "We've got that straight. You're Bull Griffin. But who's this?"

"Oh, him?" said Mr. Griffin negligently. "He's just me body-guard, Tony Spaldini. Shake hands wit' da lady, Tony."

"Pleased to meetcha, lady," he said, briefly. "But beat it, will ya? We're havin' a powwow."

A wreath of admiration escaped Mr. Harkness. He had known Mrs. H. for 50 years. And during that time nothing in pants had ever worked up the nerve to address her like that.

Mrs. Harkness gasped and sought helplessly for suitable words. In the interim Sally put a question.

"And just what," she asked Bull Griffin, "are you planning to do next?"

Mr. Griffin grinned his incredible grin and waved his automatic gently.

"Me an' me pal," he said, "are bunkin' her da night."

SIDE GLANCES

Invite Prophets of Doom to Special Preview on The End of World

PHILADELPHIA, Aug. 18.—(AP)—The Franklin Institute's Fels Planetarium cordially invites the prophets of doom to a special preview of the end of the world.

With scientific zeal, planetarium officials sought today to round up half a dozen of the gloomy fellows and give them a glimpse of the calamity they periodically predict is at hand.

Projections of what the super disaster may look like—if there's anyone left to look—were arranged for the night of August 30. There'll be hot and cold waves, thunderstorms, earthquakes, volcanic eruptions and an explosion of the moon—with the sound effects.

The Planetarium's prophet-search will take an official tomorrow to Freeport, L. I., where dwells "Apostle of Doom" Robert

Reidt, waiting impatiently for a judgment day 13 years overdue—according to Reidt's calculations.

Prophecy "Blew Up"
This pale pessimist predicted the world would come to an end at midnight, Feb. 6, 1925. Two persons committed suicide to escape the horror of it all. When Reidt's prophecy blew up instead of the earth, he blamed photographers' flashlights.

The Planetarium also seeks Prof. Albert Porta of San Francisco who sent the nation's church attendance soaring when he set Dec. 17, 1919, for the calamity to end all calamities.

Superstitious persons fasted and several Oklahoma miners refused to enter their pits while there was a chance the earth would crumble. A train whistle stuck in Indianapolis and believers in the

professor's theory thought it was Gabriel's trumpet.

Wilbur Glenn Voliva, of Zion, Ill., most renowned of the prophets of destruction, is invited, too. Voliva, it may be remembered predicted seven years ago that the world "Will go 'boom' like a firecracker" on Sept. 10, 1934. He corrected himself on Sept. 11, 1934 and postponed the awful event to Sept. 10, 1942. (How's your life insurance?)

Operators of the Planetarium projector promised realistic demonstrations of what would happen if planets collided, if the sun got hotter or colder, or if the moon blew up. They showed some of their tricks today. The moon comes at you like a baseball propelled by Dizzy Dean. Then it explodes with a flash—right over city hall.

"SEDALIA'S SMARTEST FOOTWEAR"

TODAY'S PATTERN

By Carol Day
YOU'LL never be sorry you're thin—even too thin—when you have on this beguiling design, with its very high puffed sleeves and its full, gay and youthful skirt.

That snug, pointed corsetlike effect emphasizes your tiny waist—a decided fashion asset this fall. Soft gathers, just above it, give you needed fullness over the bosom. The wide, heartshaped neckline is a final touch of flattery.

This design Pattern 8279, will prove so becoming that you'll make it over and over again. It's really no trouble. In your detailed sew chart there are only seven easy steps.

It looks equally pretty in cotton, silk or wool, calico or percale, taffeta or challis. In the fall, you'll love it in velveteen.

Pattern 8279 is designed for sizes 12, 14, 16, 18 and 20. Size 14 requires 4 1-8 yards of 39 inch material; 3 3-4 yards of ribbon or braid to trim as pictured.

The new FALL AND WINTER PATTERN BOOK, 32 pages of attractive designs for every size and every occasion, is now ready. Photographs show dresses made from these patterns being worn; a feature you will enjoy. Let the charming designs in this new book help you in your sewing. One pattern and the new Fall and Winter Pattern Book—25 cents. Pattern or book alone—15 cents.

HELP KIDNEYS PASS 3 LBS. A DAY

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder. An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, leg pains, loss of sleep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

STORY HOLDS SENTIMENTAL TIE FOR DON

Scenes in Dramatic Film of Ellis Island Appeal to American-Born Ameche

To Don Ameche, 20th Century-Fox star, his leading role in "Gateway" has a deep sentimental attraction.

For Ameche represents the splendid principles on which the theory of America as a land of opportunity is based.

"Gateway" is a stirring story of the joys and sorrows of those who arrive at Ellis Island—the "gateway" of America.

Don, of course, is as American as the Yankee Stadium. He was born in Kenosha, Wis., and until he took his recent vacation, had never left these shores.

But his father, Dominic Felix Ameche, came from over the sea. The senior Ameche was born in an Italian village near Rome. He came to America as a very young man, and his life here has epitomized good citizenship.

Don's father became a successful business man. He married a girl of Irish-German stock and they are parents of a large and happy family. There are eight children, of whom Don is the eldest. "Gateway" coming tomorrow to

the Liberty Theatre with Don Ameche and Arleen Whelan co-starred. The dramatic story of Ellis Island features Gregory Ratoff, Binnie Barnes, Gilbert Roland, and Lyle Talbot are included in the cast.

ROBERT TAYLOR GETS A TWO-MINUTE BEATING THAT WASN'T IN THE SCRIPT

Because the ringside bell failed to sound the end of the round, Robert Taylor took a two-minute beating from Patsy Perroni that the script didn't require.

The two were fighting the final bout of "The Crowd Roars," which comes to the Liberty Theatre Tuesday for a three day engagement. It was the seventh round and Taylor was taking the licking called for. He had accepted for leather flying from all angles, had picked himself up twice from the canvas, and had been knocked into the ropes again and again. The ringside timekeeper became so excited at watching the bout that he forgot completely to attend to his job.

When the fight went on and on,

Director Richard Thorpe yelled over a portable microphone: "Sound the bell! Sound the bell!" But the roar of eight hundred extras in the replica of Madison Square Garden drowned him out completely. By blowing a whistle and dispatching a group of studio police to the ringside, Thorpe finally broke up the bout, with Perroni and Taylor both glad to take considerable more than the one-minute time-out before going into the eighth.

F. F. Frakes Flies Carefully Into a Potential "Death Trap"

Captain F. F. Frakes, stunt flyer, doesn't expect to die in a plane crash although he has already survived 56 deliberate dives into houses, creeks and other obstructions generally avoided by pilots.

"Ah'm gonna quit just after the one before the last one," he said as he sat in the lobby of the hotel Wednesday night.

Frakes, a Tennessee born, lanky flyer, has been flying since 1919. He has been a mail pilot, test pilot for Curtiss-Wright and, on one occasion, a parachute jumper.

Saturday afternoon the Captain will crash a Swallow plane, powered with a Curtiss-Wright motor, into a house about the size of a four room bungalow as part of the Thrill Day program at the Missouri State Fair.

Despite his almost daily brush with danger, Frakes bears only one or two scars to remind him that he is making his living the "hard way."

"When I crash a plane," he says, "I know what I am doing and I do what I know. People come to see my stunts because of the element of danger there is in them but I don't expect to die in a crash. I fly carefully so I will be able to tell my grandchildren about it." "I got a daughter 13 years old," he proudly added.

The flyer remembers only two crashes which might have ended tragically. Two weeks ago he and another pilot were attempting to crash head-on while 150 feet above the ground. The crash was

KruGon Wasted No Time In Regulating His Digestion; Now Eats and Enjoys Meals Without Gas and Bloating Afterwards; Proper Elimination Given Mr. Klenklen Too With Use of KruGon.

KruGon is not a new medicine, although it is comparatively new to the people of Sedalia and vicinity. This laxative-tonic formula was first introduced to suffering people over three years ago,

MR. JOSEPH KLENKLEN

During which time many hundreds of sufferers have found it to be just what they had been needing for years. For example, read what Mr. Joseph Klenklen, Route No. 1, Pilot Grove, Mo., (just northeast of here), a well known local gentleman, said recently in talking with the KruGon man who is daily meeting the local public at the McFarland and Robinson Drug Co., 104 West Main Street, this city:

"My only regret is that I did not know of KruGon many years ago," said Mr. Joseph Klenklen, "My health had not been very good for the past thirty years regarding my digestion. It seemed I would have severe attacks of bloating and gas pains after most every meal. I could not find a diet that would agree with me all of the time and I soon lost my appetite and never had the normal desire for eating. Often the gas would crowd my heart causing it to be so uncomfortable, palpitation was constantly bothering me. I could not get the proper elimination either and my system was accumulating so much poison that about four months ago I was taken with an awful attack in my back. Not being able to get the proper nourishment I grew weak until it was with a great effort that I did anything at all. I had tried many different kinds of medicines but with no good results and when I first learned of KruGon I thought it to be 'just another' remedy but was finally convinced to give it a trial..."

"At the time I began KruGon little did I expect such completely satisfactory results," continued Mr. Klenklen, "But I was determined to put KruGon to a REAL test so I took it faithfully and regularly and the results it gave me were just what I had been looking for. My digestion was regulated, bowels are now fine and I can eat and enjoy the foods I want without any ill effects afterwards. All that gas and bloating has gone and that back misery has gone too. I sleep good now, feel fine and would not take anything for what this KruGon has accomplished for me."

The KruGon Man is daily meeting the local public at the McFarland and Robinson Drug Co., 104 West Main Street, this city, where he is introducing and explaining the action of this medical discovery.

COLT OWNED BY O. BRUCE IN RAPID GAIN

Above: Missouri Colt Production entry owned by O. Bruce, Sedalia, Route 4, which made a gain of 688 pounds in one year.

A filly colt owned by O. Bruce of Sedalia, Route 4, was weighed out of the Missouri Colt Production Contest on July 31, 1938, at the age of 15½ months at a weight of 1170 pounds. She was foaled on April 15, 1937, and entered in the contest on August 1, 1937, at a weight of 482 pounds.

This is a gain of 688 pounds in a year, which fulfills one of the requirements of the contest of a minimum gain in weight of 600 pounds during this period.

According to J. U. Morris, county extension agent, such a gain as this is the result of properly feeding a well bred individual. Failure to either feed prop-

erly or have a well bred colt greatly lessens the chance of making such a gain as is required in the contest.

Mr. Bruce has fed this colt during this period on a grain ration consisting principally of oats with a small amount of corn and molasses and a roughage ration primarily of sheath oats.

Through the proper trimming of the colt's feet, Mr. Bruce has done much to develop a good, straight set of legs and tough, well-shaped feet on this colt.

This is of prime importance since the usefulness of a draft horse depends to a great extent on the feet and legs of the animal.

no need to allow the pullets to range. It is easier to get them to consume liberal quantities of mash and grain when they are confined and they will not be disturbed after they start laying. Often pullets are allowed to range about the old poultry yards during the fall and become heavily infested with worms and may come in contact with infectious disease germs.

With generally increased amounts of green feed available during the fall season, many fail to house the pullets thinking that more green feed will reduce feed costs. While green feed is palatable and nutritious, it is not a substitute for liberal feeding to get the pullets bodies heavily covered with muscle and fat before heavy laying starts. Delaying housing likewise delays production.

The pullet flock should always be housed separately from the old birds. This may be either done by having separate houses or by the use of a wire partition in one house.

It is important that the pullets be free from lice and worms before they are housed. If they are found, treatments should be given immediately.

On farms where the pullets were hatched early and a few are beginning to lay, the house should be thoroughly cleaned, disinfected with lye water, and the pullets moved to these permanent quarters. Later hatched pullets should be housed by September 30.

As the pullets start laying, the grow mash should be gradually changed to the lay mash. A house should be well lighted and ventilated to provide maximum comfort for the pullets. Under such conditions, there is

High Producing Flock for July
ONE OFF F. H. COOK
Average Per Hen For Resident Near Beaman Was 15.9 Eggs

For the third consecutive month, a flock of White Leghorns owned by F. H. Cook, Beaman, Route 2, has been the high producing flock among the ten Pettis county poultry co-operators. During the month of July, the average production per hen was 15.9 eggs.

The second high flock for the month of July was also White Leghorns owned by C. S. Arnold, Hughesville, with a production record of 15.6 eggs per hen.

A mixed flock of White Leghorns and White Rocks owned by C. E. Carroll of La Monte with a production of 15.5 eggs per hen was the third high flock.

E. B. Winner, assistant county agent called the attention of these co-operators as well as other poultrymen in the county to the fact that a substantial net income from the poultry flock depends largely upon securing a high egg production from the pullet flock during the fall and winter months.

WALKED IN SLEEP RIGHT OFF TRAIN

POCATELLO, Idaho, Aug. 18.—Twelve-year-old Ronald Earl Merwin of Emporia, Kas., waited here Wednesday for his 15-year-old brother, Marshall, who went sleepwalking on a passenger train 150 miles down the line.

The frightened boy told railway attendants he awoke in the chair car of an eastbound train early today to discover his brother was gone.

Just as authorities started a search the station agent at Gooding, Idaho, 150 miles west of here, telegraphed that Marshall, walking in his sleep, had opened a car door and fallen out as the train was leaving Gooding. He was reported dazed by the fall but uninjured.

Marshall was on his way here in another train to resume his journey homeward, with his brother, from a visit at Portland, Ore.

HER STORY WINS DIVORCE FROM KENTUCKY HUSBAND

LOUISVILLE, Ky., Aug. 18.—After six months of married life Mrs. Catherine Stewart told the judge her husband:

Tossed out the meals she cooked. Struck her numerous times with a broom. Walked on her laundry. Emptied gasoline out of the family auto so she couldn't use it.

Once made her sit on doorstep until 4 a. m. Got mad when she couldn't buy groceries for a week on \$1. She won the divorce.

BOOSTERS TAKE DISTRICT TITLE IN FINALS HERE

Win Over Marshall To Enter State Championship Tourney

The Sedalia champion Booster softball team won the right to compete for the state championship at St. Joseph September 3 by blasting the Marshall Red Cross team off the diamond in a 12 to 4 rout.

White on the mound for the Missouri Pacific ten who last week defeated their rivals here to capture the Sedalia title was pounded heavily by the slugging Marshall drug store team but effectively tightened up in the pinches to allow only four men to cross home plate.

Scoring 6 runs in the fourth and 5 in the fifth innings the 'Boosters' turned a close game into a rout as the Red Cross infield broke under the pressure being chalked with 6 errors.

The victory put the team in a series with 12 others from all sections of the state, the winner of which will be awarded the Missouri championship.

The Boosters collected 9 hits in six innings while the Red Cross team smashed White for 10 hits but failed in their batting attack when the bags were loaded.

Hightower went the route for the Marshall team now in the lead for their city championship. Making a desperate attempt to cut the huge lead held by the Boosters, the Red Cross pushed in two runs in their final time at bat before White tightened up to bring the game to a end and a championship.

Earlier in the evening the Adcos defeated Rosenthals 5 to 4 in an eight inning exhibition game. Both teams were eliminated in the district tournament by the Red Cross team, the Adcos in the second round and Rosenthals in the semi-finals.

SHOOTING IN A DISPUTE ON FIGHT

By The Associated Press.
MINNEAPOLIS, Aug. 18.—A dispute about the fight between Henry Armstrong and Lou Ambers last night wound up in a shooting affray that sent a police detective to the hospital with critical wounds, and his father-in-law to jail.

The detective, Leonard Colston, said he was called to the apartment of his father-in-law, Leo Jaworski, 64, to settle an argument that started after the radio announcement of the decision making Armstrong the lightweight champion.

Colston, in his statement to police, said he thought he had smoothed out the difficulty and was leaving when Jaworski called him back, pulled a gun and fired. The detective was shot in the neck, chest, left arm and shoulder, and another fight fan, Frank Jerosse, 37, was shot in the arm when he tried to take the gun away from Jaworski.

The Sports Roundup

(By EDDIE BRIETZ)
NEW YORK, Aug. 18.—(AP)—A great fight, a great champion and a great loser... That's the only way to sum up Ambers vs. Armstrong. ... How those guys went to town. ... Mike Jacobs can pack the Garden again if he can re-match 'em... Too bad about all those boos at the end. ... From where we sat Armstrong won and no doubt about it, but some who saw it from other angles thought Ambers at least earned a draw. ...

Nearly 600,000 cash customers have watched the Dodgers at home this year. ... Not so bad for a 30 to 1 first division shot, eh? ... Pro football fans are going to have to get along without old Bronko Nagurski this season. ... He's off on a world's tour to show the boys and girls the latest wrestling grips. ... Chicago's Bears won't seem the same without him. ... That 50 cent vote for golf balls gets a hearty vote from this corner.

Jack Dempsey says Billy Mike gave him far and away his toughest fight, although we would not have thought so having seen Firpo nearly ruin Jack. ... A Minnesota resort entertains its guests each Friday evening with movies of Minnesota football games with Bernie Bierman providing the sound effects. ... Wilson (Bull) Elkins, former backfield mate of Ernie Koy of the Dodgers at U. of Texas, has just been elected president of San Angelo (Tex.) College. ... And while all this was going on, Koy hit a homer off Harry Gumbert. ... And so three cheers for the wild, woolly Texans.

Under Rex Enright, South Carolina is looking for its greatest football team in 20 years this season, what with an undefeated, unscored bunch of yearlings coming up and plenty of experienced men left. ... Maybe if the Red Sox would give William Broome, the 19-year-old pitching sensation, a \$500 bonus, he'd report and stick. ... He's been in camp three times but always ducked out to go back to Lockhart and see pa and ma. ... He's a homer, that boy.

Johnny Vander Meer of no-hit fame is susceptible to colds and always carries his long red 'uns around with him. ... When the first cold chill hits the air, he hauls 'em out and puts 'em on. ... When Betsy Grant collapsed from the heat at Rye the other day, first wire he received was from his mother. ... She told him not to forget to take his cod liver oil pills. ... Which reminds us that we also are about to collapse—from the heat—and will do so pronto.

ARMSTRONG IS WINNER, HOLDS THREE CROWNS

Takes Decision From Lou Ambers to Lift Lightweight Title

MADISON SQUARE GARDEN, NEW YORK, Aug. 18.—(AP)—Hammering Henry Armstrong the dusky dynamiter from Los Angeles, pounded out a new chapter in fistic history last night by whipping gallant Lou Ambers of Herkimer, N. Y., for the world lightweight champion and thus becoming the first man to hold three ring crowns at the same time.

Bloody, arm-weary and nearly exhausted from his effort to stop the game title-defender, Armstrong emerged from 15 savage rounds of fighting to win a split official decision, despite an erratic finish that cost the little Negro three rounds on penalties for hitting low and a spectacular rally by Ambers.

Armstrong, although unable to finish his sturdy foe and actually hard-pressed to save his winning margin through the last five rounds, scored two knock-downs and won decisively, notwithstanding the penalties assessed against him for questionable tactics and the partisan demonstration by a majority of the crowd after the verdict was announced.

Saved By Bell
Ambers was knocked down in the fifth round, and saved by the bell, which rang just one split second after the champion was smashed to the canvas by a right to the jaw.

Armstrong brought his man down again, for the count of eight in the sixth round but his most desperate efforts thereafter were unable to upset the champion.

Armstrong threw every punch in his arsenal in a bid for a knockout in the 11th. Again, in the 14th, after losing three straight rounds to Ambers—two of them on penalties—the Negro connected with a right hand that knocked the champion into the ropes. But for the backstop Lou would have gone down, for the third time.

The victory for the 25-year-old Negro capped the climax of the most amazing championship winning streak in pugilistic annals, giving Armstrong his third world title within less than ten months.

Holds Three Titles
Hammering Henry won the featherweight title by knocking out Petey Sarron in the Garden, last October 29. He captured the welterweight or 147-pound crown on points from Barney Ross last May 31.

By lifting the lightweight or 135-pound honors from Ambers the little perpetual-motion machine of the ring recorded his 39th consecutive victory within a two-year period. Ambers was only the fourth opponent in this string to go the limit.

ROOSEVELT PLEA FOR DEVELOPING OF WATERWAY

President Speaks At Dedication of Bridge At Canadian Border

By WILLIAM B. ARDERY
THOUSAND ISLANDS
BRIDGE, Canadian-U. S. Border,
Aug. 18.—(AP)—President Roosevelt made a vigorous plea for the long-debated St. Lawrence waterway treaty today and said unless the United States and Canada take joint governmental action a "group of American interests" may gain a monopoly in developing the river.

Mr. Roosevelt spoke at dedication ceremonies for the winding bridge across the St. Lawrence connecting Ivy Lea, Ontario, and Collins Landing, N. Y.

The President, in his prepared address here, outlined the potentialities of navigation and power development in the boundary-line river and then added:

"The development of natural resources, and the proper handling of their fruits, is a major problem of government. Naturally, no solution would be acceptable to either country which did not leave its government entirely master in its own house.

"Put it bluntly, a group of American interests is here gradually putting itself into position where, unless caution is exercised, they may in time be able to determine the economic fate of a large area, both in Canada and the United States."

The President said he looked forward to the day "when a Canadian prime minister and an American President can meet to dedicate—not a bridge across this water—but the very water itself, to the lasting and productive use of their respective peoples."

Urges Deeper Channel
Mr. Roosevelt called attention to the fact that at present there is a 14-foot channel carrying water traffic from the Great Lakes through the St. Lawrence to the Atlantic. He continued:

"If this were deepened, which can easily be done, to 27 or 30 feet, every city on the Great Lakes now inland, would become an ocean port.

"The banks of the St. Lawrence valley would become one of the greatest gateways of the world and would benefit accordingly.

"Do we need to delay, and to deprive our peoples of the immediate employment and profit, or prevent our generation from reaping the harvest which is awaiting us?"

The President told his listeners that if they would scan records "with which my government is familiar" they would learn that all electric power developments along the St. Lawrence except the Ontario hydro are "called to, if not controlled by a single American group."

CLAIM INSURGENTS ARE THROWN BACK

HENDAYE, France (At the Spanish Frontier), Aug. 18.—(AP)—Spanish government dispatches announced today that government troops had thrown back an insurgent offensive in the vital Pandols mountains which control the Gadesa sector in Eastern Spain.

The attack was against hill 705 in the western part of the mountains and was smashed by government machine-guns, the communists said.

Government troops then went over the top in a counter-attack with hand grenades and drove Generalissimo Francisco Franco's men back to their original positions.

Government military bulletins asserted the insurgents had lost 20,000 men in vain attempts to break government lines in the Pandols the past six days.

COUNT TO CONFER WITH HIS WIFE

VENICE, Italy, Aug. 18.—(AP)—Count Court Haugwitz-Reventlow arrived in Venice today by airplane from Budapest for an hour's conference with his wife, the former Barbara Hutton, from whom he is separated.

The count's sudden appearance caused Venice society to speculate on the possibility of a reconciliation, but it was believed the meeting merely was another conference to arrange the affairs of the couple.

The countess waited in the lobby of her hotel for her husband's arrival. The two then went to a quiet corner of the hotel bar for their talk.

The count went to a different hotel to spend the night and was expected to depart by plane tomorrow.

BOMBINGS HAMPER SUPPLY SERVICE

HONGKONG, Aug. 18.—Japan's persistent air bombing campaign against the Canton-Hankow railway today appeared for the first time to have put that vital line of supply for China's armies out of commission, at least temporarily.

There has been no passenger service between Canton, China's southern metropolis, and Hankow, the provisional capital, for the past ten days, and now, as far as can be learned, no military trains are getting through.

Forty-two Japanese warplanes took part in the daily raid on the railway today. The Canton-Kowloon railway, linking Canton with this British colonial port, also was heavily bombed.

Hitherto the Canton-Hankow railway has been the most important route by which war supplies from abroad have reached the Chinese armies.

ARABS CLOSER TO PALESTINE TOWNS

JERUSALEM, Aug. 18.—(AP)—Arabs, emboldened by the success of their land mine tactics, were reported today drawing closer to Palestine's main towns in unabated strife between Jews and Arabs in the Holy Land.

Large detachments of British troops, attempting to quell the terrorism that has been widespread since July 5, made numerous arrests and continued their watch, particularly in the Nablus area.

Two new land mines were discovered and removed from the main Jericho-Jerusalem highway just before a potato company convoy passed.

Two British soldiers were killed yesterday when the truck in which they were riding struck a land mine on the road between Nablus and Jenin.

Six workers of the Palestine electric company were injured in Haifa, three of them gravely, when a bomb struck a Jewish bus in which they were passengers.

CAMERON MAN LOSES LIFE IN AUTO ACCIDENT

HANNIBAL, Mo., Aug. 18.—Thomas Deem, 53, of Cameron, Mo., was killed and four other persons were injured in an auto collision on highway 36 west of here last night. The injured were brought to a hospital here. Deem was an auctioneer and was returning home from a sale he had conducted.

PROPOSAL MADE FOR ENLARGING SUPREME COURT

Elimination Of Three Appellate Courts Suggested By Council

ST. LOUIS, Aug. 18.—A proposed constitutional amendment which would eliminate the Kansas City, Springfield and St. Louis appellate courts and consolidate them with an enlarged supreme court was laid before the lawyers of Missouri today.

The suggested change was advanced by the state judicial council, established by the supreme court to study and recommend improvements in the judicial system. Frank H. Sullivan, St. Louis attorney, is chairman of the council.

The proposed amendment is being sent, in pamphlet form, to each member of the bar in Missouri. Later on the judicial council plans to take a referendum among lawyers to determine whether the amendment should be submitted to the voters.

The new plan would create a supreme court with 16 members, instead of seven as at present.

Would Fill Out Terms
Judges of the three appellate courts which would be abolished would become judges of the supreme court for the terms for which they were elected.

At the expiration of these terms three supreme court judges would be elected in each of the three former appellate court districts. The other seven supreme court judges would be elected by statewide vote.

The proposal differs substantially from one submitted by the judicial council two years ago relative to appellate litigation. It would have expanded the jurisdiction of the appellate courts. The movement was dropped when it failed to receive the general support of the lawyers.

The new proposal would provide for a court en banc consisting of the chief justice and six other judges, which would sit at Jefferson City. The court would be authorized to provide for divisions, which would sit at such times and places as the court directed. Not less than three judges would constitute a division.

The amendment also would abolish terms of court, which would be deemed always open.

The supreme court would be authorized to designate circuit judges to sit in any of the judicial circuits, contemporaneously with the regular judges.

Other members of the judicial council are: Roy D. Williams of Booneville; Leslie A. Welch and Judge Brown Harris of Kansas City; Judge E. L. Alford of Hannibal; James A. Finch of Cape Girardeau and John R. Bake of Fulton.

DALADIER APPEALS TO SUPPORT FRANC

PARIS, Aug. 18.—Premier Edouard Daladier appealed to the nation today to give renewed support to the government in face of "international difficulties" and attacks on the franc.

The "national defense," Premier Daladier, in a statement issued from his office in the war ministry, declared the gravity of the international situation had been "exaggerated" and asserted his government was opposed to fresh devaluation of the franc.

"The government counts on the Frenchmen to be confident in the future of their country and to accomplish their duty as the government is determined to do its own," Daladier declared.

Referring apparently to the tri-power accord among the United States, France and Great Britain to stabilize their currencies, he declared:

"The government is resolutely hostile to both control of foreign exchange and new devaluation of the franc.

"They would have for a consequence the rupture of international solidarity which is the most effective guarantee of the peace of Europe."

DROPS DEAD AS TRAFFIC SENTENCE IS SUSPENDED

NIAGARA FALLS, N. Y., Aug. 18.—The shock proved too much for Percy O. Lebas, 65, when Police Justice Carl E. Tucker suspended sentence on a traffic violation charge.

Lebas dropped dead. He had been under treatment for heart disease.

Divorce Action Filed

Mrs. Edna Zulkie filed a suit in circuit court today asking for a divorce from Arthur Zulkie, to whom she was married April 30, 1932. Desertion is alleged. The plaintiff was formerly Miss Edna Grimes.

Montgomery and Salveter are attorneys for the plaintiff.

Asks For Divorce

Alleging general indignities Leo Oswald today filed suit in the circuit court asking for a divorce from Vivian Minerva Oswald, to whom he was married November 21, 1936. Plaintiff asks for custody of their minor child.

Palmer and Palmer are attorneys for the plaintiff.

DOESN'T THINK HIGH COURT MIND ACCEPTANCE

KINGSTON, Ontario, Aug. 18.—(AP)—President Roosevelt told Canadians today he did not think the supreme court would mind if he accepted an honorary degree from the Queens University here.

Receiving a doctor of laws degree, the chief executive said: "An American president is precluded by our constitution from accepting any title from a foreign prince, potentate or power. Queens University is not a prince or a potentate, but it is a power.

"Yet I can say without constitutional reserve that the acceptance of the title which you confer on me today would raise no qualms in the August breast of our own supreme court."

SEDALIAN THIRD IN JUDGING CONTEST

COLUMBIA, Mo., Aug. 18.—(AP)—The Drumm Institute team of Independence, representing Jackson county, won first place in both individual and team competition in livestock judging at the statewide 4-H club roundup at the University of Missouri here today. Joe Warrior won the individual title and teamed with George Billuris and George Loveall to take the team championship.

In the team championship Atchison county was second, Carroll, third; Cass, fourth and Jasper, fifth. John Hall of Hamburg, Iowa, was second in the contest for individuals with John Sneed, Sedalia, third; Tommy Tweedie, Carrollton, fourth, and Loveall, fifth.

PREDICTS INQUIRY IMPROVE BUSINESS

By The Associated Press.
WASHINGTON, Aug. 18.—Senator O'Mahoney (D-Wyo.) predicted today the federal anti-trust inquiry would improve business conditions by replacing the lending-spending program with permanent monopoly restrictions.

Returning from a western trip on which he conferred with several prominent business men and industrialists, he said:

"Among business leaders there is a growing conviction that a constructive anti-trust law must be adopted, and they are ready to cooperate in the enactment of such a law.

"Everywhere there is a revival of business, attributed to the government spending program. But business men and the people generally have come to realize that when the spending program ends, it will be necessary to substitute for it a new program based on the internal forces of private business.

"The country is going to consolidate the gains that have been made. It is clearer to me than ever before that out of the study the committee has undertaken will come a permanent solution."

The 12-member investigating committee which O'Mahoney heads probably will begin public hearings this fall.

General business problems also will receive attention this fall from the senate committee on unemployment and relief, which began hearings last winter.

Senator Murray (D-Mont), a member of that group, suggested today the government cooperate with business in establishing a system of continuous industrial employment.

CAULFIELD TAKES A RAP AT SPENDING

POPLAR BLUFF, Mo., Aug. 18.—Former Governor Henry S. Caulfield, candidate for the United States senate speaking at a Republican rally here last night, bitterly criticized the administration's "spend thrift" policies and laid the blame for the "serious financial condition" of the nation to congress, which gave President Roosevelt the power to spend.

Pointing to the particular increase in state expenses, Caulfield said the first two years of his administration cost the state \$23,000,000 while the first two years of the Stark administration brought operating costs of Missouri to \$78,000,000. The national government expense has increased in even greater proportion, he said.

"Despite this lavish expenditure of the peoples money," Caulfield declared, "and the promise of the Democrats to improve general conditions, unemployment has increased two millions."

"I am not going to let Senator Bennett Champ Clark ride in again on the coat tail of Franklin Roosevelt," Caulfield asserted. "Clark and his associates think the depression is permanent. They say millions now out of work will never be employed again. If this is their idea, they should give up for we do not feel that way.

"It is the policy of the new deal to keep them out of work. One law they made put people out of work—for instance, the cotton law, which curtails production on cotton.

"This fellow Secretary Henry Wallace boss of the farmers, has admitted his policy has thrown a million men and women out of work in the cotton fields. That goes equally for wheat, corn, tobacco and other farm products.

CZECHS AND NAZIS STILL APART ON AUTONOMY ISSUE

Heavy Fighting Progresses In Chinese and Spanish War Areas

(By The Associated Press)

Conflict in Czechoslovakia between the government and the Nazi-supported Sudeten German minority came to a new crossroads today; in China, Japan gathered new power for her Yangtze river campaign and, in Spain, government and insurgent forces locked grips on two important fronts.

A foreign office official in Praha disclosed that a meeting had been arranged between Viscount Runciman, unofficial British mediator in the issue over the Sudeten Germans' demand for autonomy, and Konrad Henlein, leader of the Sudeten party.

It will be their first direct contact and it was understood Lord Runciman would plead that the Sudeten Germans take a less uncompromising attitude than that expressed yesterday in a manifesto proclaiming dissatisfaction with present procedures which "lead nowhere."

Commentators in London stressed that the Sudeten Germans had left an open door to new efforts to negotiate and said Lord Runciman's arrangement of a meeting with Henlein indicated the Briton might already have suggestions for a new basis for talks.

Bombard By Ships and Planes
Japanese warships and warplanes bombarded stubbornly-held Chinese positions on the south bank of the Yangtze river in redoubled efforts to break through to Hankow, China's provisional capital.

The Japanese relied on strong reinforcements to give new effectiveness to their campaign, which has been almost at a standstill since the Japanese occupied Kiukiang, 135 miles below Hankow, July 25.

Heavy fighting spread on the Estremadura front in southwestern Spain as Spanish government troops tried to drive insurgents from the foothold they had won in the mountain barrier to the Almaden mercury mining area.

Insurgents said all government counterattacks failed but the government declared insurgent vanguards had been driven back across the Zuñar river.

REFUTE REPORTS HALIFAX MAY QUIT

LONDON, Aug. 18.—British government spokesmen today issued sharp official denials of reports that Viscount Halifax, foreign secretary, might resign because of differences with Prime Minister Chamberlain over dealings with Europe's dictators.

One official said such reports were "preposterous and rather mischievous at the present time." Reports current in diplomatic and other circles yesterday said that Lord Halifax had veered to the belief of his predecessor, Anthony Eden, that the time had come to deal sternly with the dictators.

Eden resigned Feb. 20 because he differed with Chamberlain's "realistic" policy of seeking understanding with the rulers of Italy and Germany.

Concerning yesterday's reports usually reliable sources said there had been no open break between the foreign secretary and the prime minister.

EARLY LEAD TAKEN BY HORTON SMITH

TORONTO, Aug. 18.—(AP)—Horton Smith of Chicago, one of a strong delegation of American professionals, took the early lead in the first round of the Canadian open golf championship today by firing a two-under-par 70 over the Mississauga Country club course.

Smith, out in par 36, turned on the heat on the back nine to finish with a two-stroke margin over blond Jimmy Hines of Great Neck, N. Y. Hines played 35.

GARNISHES FOR MEATS

(By Martha Logan)

First of all, let me say that by garnishes for meats I mean fruit or vegetable accompaniments selected, prepared, and arranged so as to enhance appetite appeal and satisfaction of eating.

Many a big "turkey" platter is tucked away on a top shelf for occasional use. How much better to use it daily for serving the meat-and-potatoes, vegetable or fruit combination that forms the basis of the meal. Such an arrangement can be a real picture and it saves on serving dishes too.

Here are some things to remember:

1. Choose flavors that "go well" together, such as minted peas with roast lamb.
2. Choose colors that are attractive together, such as buttered carrots and green string beans with meat loaf and mashed potatoes.
3. Arrange platter attractively, yet be sure it is easy to serve.
4. Do not overcrowd.
5. Do not use thin sauce. Most creamed food is best on toast or in cases if served on a combination platter. For example—broiled ham, browned pineapple

slices, and creamed celery in green pepper cases.

6. Use bright red paprika and parsley judiciously; that is, enough, but not too much.

Fruit Garnishes

Canned, fresh or cooked pineapple, peaches, pears and apples are good flavors with meat. Pickled peaches, pears and crab apples are delicious with any meat.

Grapes and Pineapple

Dip small bunches of green grapes into mint or lime gelatin, cooled to heavy liquid stage. Drain. Redip if necessary. Let set. Serve on a slice of canned pineapple or half a peach.

Pears and Jelly

Canned pears with a spoonful of gay colored tart jelly make a delicious garnish.

Turnip Lilies

Attractive lily garnishes from white or yellow turnips are made by using two thin slices. Fold over the edges of one slice. Insert a slice of carrot for a stem. Fold another slice of turnip over this and pinch one end together and secure with a toothpick. Unpeeled cucumber slices make a pleasing lily garnish for cold meat trays.

MARTHA LOGAN suggests

Baked Ham for Two

For the small family which finds a whole ham too large, we suggest baking the butt end of a ham. A five pound piece will require about 22 minutes per pound in a 325° F. oven if you buy the modern tender mild cured ham. Use no water and do not cover the pan. After the baking period, remove rind, cover with one-half cup brown sugar blended with 1 tablespoon flour, decorate with pineapple and prune design, then brown in a hot oven.

Colored Fruit
Sliced or whole peeled apples, pears, bananas, or sliced pineapple may be poached in a syrup tinted red or green. Grenadine syrup or creme de menthe add good flavor to the syrup.

Fruit Cups

Make orange cups from rinds of one-half oranges. Fill with cranberry preserves for the Christmas turkey. Fill with mint gelatin or jelly for the leg of lamb, applesauce for roast pork, and mixed fruit for a cold meat tray.

Vegetable Cups

Vegetable cups may be made from tomatoes, parboiled green peppers or cooked onions, turnips or carrots. These may be stuffed with creamed vegetable or a well-seasoned bread or rice dressing.

Bacon Curls

Crisp bacon is an attractive and ever so good accompaniment

for lamb chops, creamed veal or chicken. To make bacon curls, wrap the thin hot slices of cooked bacon around the wooden handle of a fork. Remove in a curl. Keep hot.

Menu

BREAKFAST: Fresh currant juice, dry cereal, fluffy omelet, toast, coffee, milk.
LUNCHEON: Creamed cauliflower

flower au gratin, buttered toast, fresh plums, tea, milk.

PARTY DINNER: Roast chicken, mushroom stuffing, glazed pineapple rings with bananas, parsley potatoes, spinach timbales, blackberry shortcake, coffee, milk.

ROAST CHICKEN RULES
THE CULINARY ROOST
By MRS. BOYNOR MADDOX
NEA Service Staff Writer
Roast chicken is our national

bird. We like mushrooms, too. Canned pineapple as well as bananas have also come to belong in the American dinner scene. So let's compose a national dinner anthem for a mid-summer feast.

As for roasting the chicken, there is a north and a south to that question. Some people insist on spreading thin slices of bacon over the chicken the last 20 minutes of roasting, or hanging links of pork sausage over it during the last 40 minutes of roasting.

When it comes to the matter of the temperature, one school of hungry thought advises placing the chicken in an uncovered pan in an oven of 300 degrees to 350 degrees F. and maintaining that constant temperature, basting it every 20 minutes with melted butter. The other school, equally hungry, believes in the hot oven at first and the 30 degrees F. afterwards.

Rest Is Of Utmost Importance In Treatment of Rheumatoid Arthritis

There is a general idea that rheumatoid arthritis is incurable, and that it is likely to go on relentlessly until the person affected is completely crippled. This idea is not justified and should not be believed. Sometimes merely a sufficient amount of rest and careful attention to general hygiene will cause the rheumatic condition to remain stationary and not to progress.

Furthermore, proper attention to the joints that are involved will control any tendency to deformity. In some instances patients with arthritis seem to be benefited by going to a hot climate or some mineral springs resort. In these cases the improvement is frequently to be credited to a change of scene and a cheerful atmosphere, rather than to any special effects of the climate.

As in many other diseases, rest is of the utmost importance for the person with rheumatoid arthritis. It must be remembered that the joints are inflamed. Rest for an inflamed tissue is a fundamental procedure in all branches of medicine.

While there is no certainty that errors of diet are in any way related to the causation of arthritis, there seems to be plenty of evidence that the maintenance of a good diet is important in securing recovery. A good diet will not have too many carbohydrates in proportion to protein and fat. It will include plenty of leafy, green vegetables, fruits, and other sources of vitamins and of the important mineral substances.

There are many charlatans who insist that arthritis can be cured by eating only raw vegetables. There is no proof, however, that such peculiar diets can in any way control arthritis.

It is now generally recognized that the person with arthritis must have a sufficient amount of vitamins A and D. If the patient is also given enough foods containing calcium—as, for example, milk—damage to the tissues and the bones can be largely avoided.

Especially important also in arthritis are those methods which are now included under the heading of physical therapy. These methods include the use of heat, particularly hot baths, paraffin baths, steam baths, electrical heat, and similar methods.

Experts also use vaccines, protein injections, body baking, bee stings, and drugs of various kinds which help to alter the general reactions of the human body.

The modern physician who treats arthritis uses all of these methods as they seem to be warranted in the individual patient.

STORIES IN STAMPS

Depression Defeated Van Buren

NO luster supporter had Andrew Jackson than Martin Van Buren, New York lawyer, senator, staunch advocate of states' rights. Van Buren became Jackson's secretary of state when the border captain attained the presidency in 1828 but he resigned in 1831 to accept the post of minister to England. Thereby hangs a story.

For the Senate, from purely personal motives arising from a partisan grudge, refused to confirm Van Buren's nomination as minister after he had actually sailed for abroad. So the minister was extremely embarrassed, but instead of the incident hurting him it added only to his popularity. With the support of Jackson he easily secured the nomination and election to the vice presidency in 1832.

Three years later Van Buren was nominated by the Democratic party and elected President over Gen. W. H. Harrison, his Whig opponent. He had hardly taken office when the panic of 1837 settled over the country, due partly to unbridled speculation and to reaction to Jackson's banking policies. In 1840 Van Buren was renominated for the presidency, but by now a vast part of the electorate held him directly responsible for the depression. This time General Harrison overwhelmingly defeated him. Van Buren was again a candidate in 1844 but was defeated.

Van Buren is shown above on a stamp of the new U. S. regular series, enlarged.

RAISING A FAMILY

YOUNGSTERS BIG FACTOR IN A HOME LOCATION

Where do you live? Have you any choice in the matter? I mean by this, can you live anywhere you choose, within reason, and are you in the best place of all for the family?

Father's work has to be considered first, naturally. He cannot live too far away. Mother has to be near enough to sources of supply to do her buying.

But what, exactly, is near enough? Ten more minutes on the subway, or even twenty? Or only one trip a week for you,

mother, instead of three or four to stores and movies?

I am a firm believer in the right home for young and growing children. Such a home is not always convenient for parents. But this often depends on the point of view.

Children with half a chance to work off their effervescence outside of the house, keep sweeter for the inside. Children on streets with restricted pavements, and cramped in the house as well, feel akin to prisoners. They make a special point of freedom and much of the time they find that freedom in proscribed behavior.

Fewer Problems in Suburbs
I find that suburban and country people have fewer family problems than city parents, other things being equal. And I also have noticed more amity in households with porches and yards than in cramped apartments.

We have to fit our domiciles to our purses, this is true, and doubling up has been a necessity of late. But today we are speaking of ideals and near-ideals. There can be no questioning of the fact that children and home agree better when the two can be separated sometimes, or when home itself offers a bit of liberty and privacy.

If the family is grinding gears and there seems to be no real cause, why not put the finger of suspicion on walls? Examine the rent lists and plan. Maybe a garden will prove more thrilling than perpetual basement sales. Maybe one trip instead of three a week will include all the necessities. Daddy, it means early to bed for you. This won't make

PARENT-TEACHER BOOTH AT STATE FAIR THIS YEAR

Sedalia and Pettis County Organizations To Be Hostesses

Representatives from Congress Parent-Teacher Association units of Sedalia and Pettis County will be hostesses to visiting parent-teacher members at the Parent-Teacher booth in the Education Building at the 1938 Missouri State Fair. Last year visitors

registered from forty-two counties in the state.

Scrap books and posters prepared by different Sedalia and Pettis County units will show something of the splendid achievements of the associations during the past year.

From recent reports several of the local parent-teacher workers, who will be in charge of the booth, represent units receiving the Standard of Excellence from the Missouri Congress of Parents and Teachers for the past 1937-38 year.

Topics To Be Discussed

So that the booth may be of greatest service to parent-teacher members and others who want to know more of the objects of the congress associations, these local people will be responsible for information on the following topics:

Saturday, August 20: Mrs. A. B. Burke, teacher of Bothwell school and safety chairman of the County Council—Safety.

Monday: Mrs. M. E. Greene, president of the Pettis County Council of Parent-Teacher Associations—Congress Publications.

Tuesday: Mrs. Glenn Kirkpatrick, president of the Mark Twain Parent-Teacher Association—Kit of Tools.

Wednesday: Mrs. William Reed, president of the Sedalia Council of Parent-Teacher Association—Publicity.

Thursday: Mrs. P. R. Burford,

president, Sedalia district—Study Courses.

Friday: Mrs. C. E. Van Horn, program chairman of the Sedalia Council—Program Planning.

Saturday: Miss Mamie McCornick, publicity chairman of the Pettis County Council—Rural Program Planning.

The Bothwell P. T. A. was chosen to represent the rural units of the county because of the highest county rating received from a P. T. A. rating sheet prepared by the county publicity chairman.

Both the Sedalia and Pettis County Councils, who are sponsoring the booth, hope that their information will be helpful to local groups who are interested in the parent-teacher program as well as to those from other counties of the state.

EMERGENCY STEPS FOLLOWS CLASH

By The Associated Press.

GEORGETOWN, British Guiana, Aug. 18.—The government of this British colony invoked emergency measures today to cope with increasingly serious labor troubles after a clash in which a woman and a policeman were injured.

The clash occurred last night when a mob of strikers attacked the officers of the Cane Grove Sugar Estate 25 miles from Georgetown. A squad of armed police was rushed to the estate, and later the government invoked an emergency law prohibiting assemblies of more than five persons.

An estimated 10,000 Negro and Indian workers on a number of big sugar estates are striking for higher wages to meet the rising cost of foodstuffs.

Champ Stowaway Is Home Again

His father was reported too angry to meet him at the ship, but, as pictured above, Mrs. Frederick Stapp of New York gave a warm greeting to her champion stowaway son, 13-year-old Bobby. He had just returned from 16 days in the Caribbean, after stowing away on the S. S. Elena. It was his fourth free sea voyage this year, bringing his illegal trip total to 20,000 miles on an expenditure of 24 cents. Previously he had stowed away to France on the Normandie, to England on the Georgic and to Savannah, Ga., on the City of Chattanooga.

TEMPORARY CAMPAIGN QUARTERS OF JUDGE FRANK

ST. LOUIS, Aug. 18.—(P)—Temporary campaign headquarters have been opened here by Supreme Court Judge William F. Frank, Republican, who is seeking reelection.

Judge Frank, only member of his party on the supreme court bench, said he would make a tour of the entire state before the November election, but would make no addresses. Instead, he said, he will devote his activities to meeting the voters and conferring with party leaders.

SEEK DESPERADOES
NEAR BROKEN BOW

DEQUEEN, Ark., Aug. 18.—(P)—Nearly two score southwestern peace officers plunged into wild country north of nearby Broken Bow, Okla., today in search of desperadoes Floyd Hamilton and Ted Walters after receiving a report they forced a farmer near Hochatown to provide them food.

The base of operations was shifted from Arkansas to Oklahoma when McCurtain county Sheriff Joe Hough of Broken Bow furnished the information that two men answering the general description of the bandits sought in his area for six days had invaded the farm house.

Hochatown is about 30 miles northwest of here. The pair left the farm after eating a meal.

Officers from Arkansas, Oklahoma and Texas, and agents of the FBI started following the new trail.

Amstrong, however, will be out of action for at least two months. A cut on his upper lip which he received in training was reopened and aggravated by Ambers' blows. A doctor had to take more than ten stitches in the wound this morning.

The triple champion, first fighter ever to hold three titles simultaneously, will leave for his Los Angeles home within the next few days. Both he and Manager Eddie Mead said they would be glad to give Ambers a return bout.
